Malik Touqeer

MERN Stack Developer | MongoDB | Express.js | React.js | Node.js
| Java | JavaScript | HTML | CSS | Student at Arfa Software
Technology Park - Lahore
Lahore, Punjab, Pakistan

Summary

I love to work with people in order to build things that matter.
Entrepreneur (Chamok Telecom).
Hello! I'm a professional Full Stack Developer or Mern Stack
Developer. I am an expert on JavaScript frameworks: React.JS,
NodeJS, MongoDB, and Express.JS. I also have solid foundations in
HTML5, CSS3, Bootstrap, Tailwind, ECMAScript, React Bootstrap,
Material UI, and WordPress Theme Customization.

I'm eagerly looking for a career in a creative organization where I can
implement my skills as well as increase my IT skills in the software
process.

My skills acquired as a full-stack developer are:

1. The ability to convert Figma and PSD designs into functional web
apps that use HTML5, CSS3, Reacts js, NodeJS, MongoDB, and
Express's.
2. UI element binding to JavaScript object models.
3. Creating RESTful services with NodeJS.
4. Design scalable web architectures.
5. Work as part of a cross-functional team to provide a
comprehensive user experience.
6. The ability to wear multiple hats and quickly learn new
technologies.
7. The ability to test a website and identify bugs and technical
problems.
